## INDUSTRIAL TRAINING AND PROJECTS

**Project : Electric lineman safety with password Based circuit Breaker**  
diploma in computer engineering SITP College, Ichalkarnji

### 2023-2024

The project aims to enhance electric lineman safety by implementing a password-based circuit breaker system. This system will allow authorized personnel to control electrical circuits by entering a password, thereby preventing unauthorized access and ensuring the safety of workers. The abstraction involves simplifying the complexity of circuit breaker operation and safety mechanisms through a user-friendly interface, while also integrating safety measures

**Internship : Mobile Application Development**  
OneStar Solution Company, Sangli

### 2022-2023

During my internship in mobile application development, I gained hands-on experience in designing, developing, and testing mobile apps for Android (and/or iOS). I worked with tools like Android Studio, Java/Kotlin and Flutter/React Native for cross-platform development.
